

LAUREN WAKNIN

Full Stack Developer

+972-54-2597679 @ laurenwaknin27@gmail.com <https://my-portfolio-lf80.onrender.com>
Tel Aviv

SUMMARY

Full Stack Developer, experienced in JavaScript based programming and currently majoring in Computer Science. Determined and solution-oriented with a diverse portfolio of academic and professional experiences. Highly autonomous but also adept in team environments and in motivating others. I have a strong passion for technology, innovation and sustainability. Outside of work, I am a motorcycle enthusiast, a Brazilian Jiu-Jitsu hobbyist and an amateur photographer.

EDUCATION

Full Stack Web Development, JavaScript program

Developers Institute, TLV Coding Bootcamp 2022 - 2023 Tel Aviv

BSc Computer Science

Goldsmiths, University of London 09/2020 - Present Online

TECHNICAL PROJECTS

Riding Buddy

<https://riding-buddy-main.onrender.com>

Created a find a riding buddy application using React and Node.js

- Utilized JSON Web Tokens to store encrypted user information client-side
- Used Leaflet API to create the interactive map
- Used MUI to style the application
- Technology stack: JavaScript, HTML, CSS, Node.js, React

Budget App

<https://budget-app-kzi6.onrender.com>

React application that allows user to manage their monthly budget

- Utilized localStorage to store user information client-side and React hooks to manage and handle states
- Used Express for server side
- Technology stack: React, JavaScript, Node.js, HTML, CSS

Coin Game

<https://laurenwaknin.github.io/Coin-game/>

Game that allows character to collect coins and jump over canyons

- Utilized p5.js library to create game character and background
- Developed with: JavaScript, HTML, CSS
